OSHA Trench Safety Day

June 25, 2019

George J. Igel & Co., Inc. Training Center
located at 3500 Alum Creek Drive,
Columbus Ohio 43207

Presented by OSHA & Industry Partners.
Registration will open at 7:30 a.m.,
followed by programming from 8 a.m. to
3 p.m.

It's easy to underestimate the hazard that excavation work presents, but one cubic yard of soil can weigh as much as a car. Join us for this FREE event as we gather with OSHA area directors and industry partners to discuss safety regulations, rescue and recovery, and hear from someone who experienced a trench collapse first-hand. Trench cave-in protection systems will be on-site for demonstrations.

Agenda:

OSHA Trenching
Requirements

Soil
Mechanics

Competent
Person

Cave-in
Protection
Systems
