INSTRUCTOR
Josh Grappy

Josh Grappy oversees the Unmanned Aircraft Systems (UAS) program for the Ohio Bureau of Workers' Compensation (BWC). The UAS program uses drones to document catastrophic workplace accidents. Josh is certified by the FAA as a remote pilot and he has over 13 years of experience with remote control technology. Josh also works as a digital forensic analyst within the Special Investigations Department and is a 19-year BWC employee.

Drones: Safety Tools in the Sky

10:30 a.m. - 11:30 a.m.
10.7.2020

This webinar provides valuable information for employers interested in starting a drone program. Discover how employers are using drones, the costs of starting a program, and the Federal Aviation Administration regulations and testing. Presenters also discuss ways BWC can help you with implementing a drone program.

- To receive one hour of online training credit for BWC Programs, provide a BWC policy number during registration.
- When your registration is complete, you will receive a confirmation email with instructions for joining the webinar. You can click the link at any time and go to the log-in page.

REGISTER NOW

BWC is accredited by IACET to offer 0.1 CEUs for this program.
